

Online and On-Site Gem Color Grading Courses for Gemstones and Fancy Colored Diamonds

"I hope your innovation in launching such a course will go a long way ... within the industry that can set standards in having a uniform understanding of gems. I salute Gemewizard in coming up with this course..." Colored Stones Grading Course Graduate

Learn the essence of gemstones and fancy colored diamonds grading and pricing with extensive online gem exercises, to bridge the gap between the academic gemological world and the practical gem and jewelry trade and dramatically shorten training time in becoming a trade professional.

► The unique Colored Diamond Grading Course reveals the world of fancy colored diamonds, covering:

- ✓ The art of colored diamond color grading using Gemewizard's carousel of digital color masters.

- ✓ Definitions, commercial names and grading principles of colored diamonds and their affect on their value.

► The Colored Stones Grading Course encompasses a wide range of gem varieties and species, covering:

- ✓ Definitions and grading guidelines of gemstone attributes and their affect on the gem's price in the world trade.

- ✓ The effect of other factors, such as country of origin, commercial names, treatments, etc. on the grading and pricing of gems.

Gemewizard Apps

Gemewizard's smartphone apps enable users to communicate the color of a gem to a third party via email, SMS messages, WhatsApp, etc.

The GemSquare app converts between the Gemewizard digital color system and other scientific languages such as the GIA®'s color space, Munsell® book of colors and CIE L*a*b*.

The **My Gemewizard app** displays typical colors of over 50 types of gemstones and enables users to capture a gem image, identify its exact color, and communicate it, together with additional information such as the gem properties, its price, its vendor and the venue at which it was presented.
